

# Activity time!

This one is so easy and requires materials that you probably already have around the house. Just remember to save the toilet rolls! Give it a go, & fingers crossed you will see the birds feeding from it! I think that is pretty cool!

## Instructions

1. Spread peanut butter over the entire outside of the toilet paper roll. It doesn't have to be really thick, just a thin coating for the seed to stick. You can do this with a spoon or knife - if you use a knife make sure an adult is there.
2. Pour some of your bird seed onto a plate. Roll the peanut butter covered toilet paper roll in the bird seed.
3. When you are happy it's covered, slip your Bird Feeder over a tree branch or tie some string or ribbon through it and hand on a branch.
4. Watch the birds feed on it!

## You will need:

Toilet Roll tube  
Peanut butter  
Bird Seed  
String (optional)  
Spoon or knife
