Easter Card Activity time!

I love to give and receive cards, why don't you have a go at making an Easter card and give it to someone?

It's simple to do, just decorate my Easter card template below, cut it out and fold in the middle.

Let me know how you get on.

Instructions

1. Print out the designs included in this activity PDF straight onto some card or paper.

2. With an adults help, carefully cut out the easter card with some scissors. Fold it in half along the middle line to make a greetings card.

3. Using coloured pens or pencils, colour in the easter card and decorate it however you like – the more colourful the better.

4. Don't forget to write on the card, and then send it to a friend or family member as a gift to wish them a happy easter.
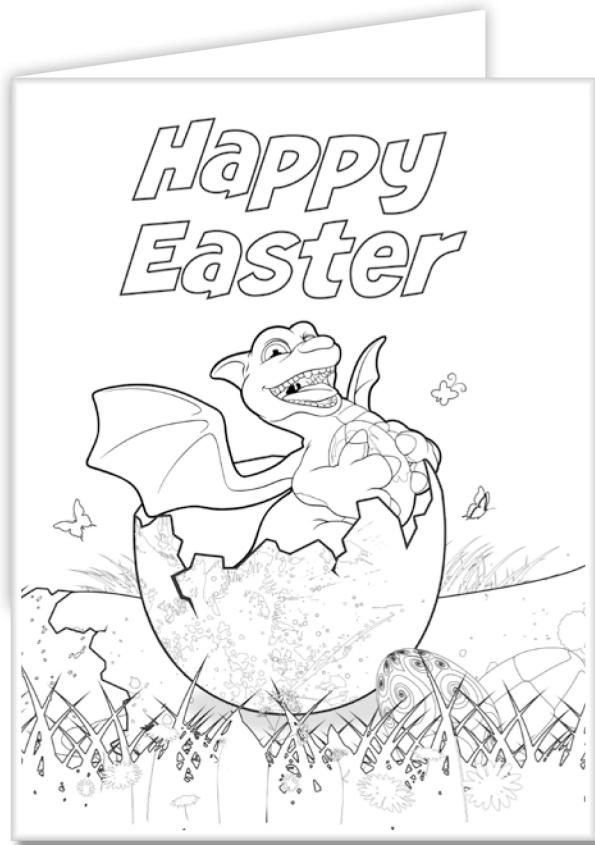

You will need:

Printer

Paper or Card

Scissors

Coloured Pens or Pencils

Happy Easter

Happy Easter
